**Notes**

(\*) Tape contains both responsive and non-responsive material. All other tapes contain only non-responsive material.

(\*\*) Multiple assistant editors who were hired as part of the filmmaking team over the course of two years may have viewed portions of the footage during the editing process.

(\*\*\*) During and after the production of **CRUDE** Ms. Styler requested that Mr. Berlinger prepare edited sequences, or to provide her editors with a small amount of selected outtakes, in order to create presentations for the Rainforest Foundation about her collaboration with UNICEF on both her water project highlighted in **CRUDE** and another UNICEF humanitarian mission in Ecuador unrelated oil production.
